Set TW5068

TwenTec Vario-Tip Hammer Set

The new TwenTec Vario-Tip Hammer Set contains 3 special Dent Repair Hammers with plastic tips on both sides plus 2 differently shaped tips.

With its variation in tips and tool lengths the TwenTec Vario-Tip Hammer Set can be used for a wide range of dent repair jobs.

The plastic tips ensure that during the repair process the painted surfaces remain scratch-free.

The plastic tips are screwed on to the hammers to provide a solid connection.
