## Set TW5069

## TwenTec Vario-Tip Punch Set

The Vario-Tip Punch Set contains the special Vario-Tip Punch with plastic tips on both sides along with a set of 2 differently shaped tips.

With its variation in tips the TwenTec Vario-Tip Punch Set can be used for a wide range of dent repair jobs.

The plastic tips ensure that during the repair process the painted surfaces remain scratch-free.

The plastic tips are screwed on to the punch shaft to provide a solid connection.
