

# WPT Spot Repair

## Product Division CR Car Reconditioning Systems

### WPT Spot Repair Master Kit

The new WPT Spot Repair Master Kit enables you to repair small damages to car paint quickly and efficiently for a fraction of the cost of repainting.

Using new methods and especially composed paints the repair is executed in such a way that it is practically invisible where the damage was before the repair.

The WPT Spot Repair Master Kit p/n WP6803 contains 52 **waterborne** color tinters, tools and equipment to enable you to mix all common colors yourself.

The 1-component filler, primer and clearcoat are **UV-drying**, which offers distinct advantages :

- Time savings due to the short curing times
- Less energy consumption
- No pot life, hence no waste
- Quick curing reduces the risk of dust enclosures.

Car Reconditioning Systems

## WPT Infra-Red Dryer 800 Watt with Timer

The new WPT 800 Watt Infra-Red Dryer has specifically been designed for Spot Repair jobs which cover a small area.

But also for the traditional paint jobs, especially in difficult to reach areas, the WPT Dryer with its detachable light-unit can come in very handy.

The dryer is supplied with a sturdy frame and a 30 minutes timer.

Power : 800 Watt

Working height adjustable from 0,20 to 1,45 meter.
