

# WPT Paint Repair

## Product Division CR Car Reconditioning Systems

### WPT Paint Repair Systems

Using the WPT Paint Repair Kits you can give repairs to bumpers, dashboards and leather seats and trim the finishing touch, to give a virtually undetectable repair. The color and transparent coaters that were developed for this purpose only, give longlasting high quality result, both in terms of color and in terms of gloss.

There are two options in using the system:

Either you mix your own colors using the 9 (water borne available as well) basic colors, with which you can produce all current colors, or you use the aerosols with the 25 most current bumper colors and the 40 most current dashboard colors.

P/N	Description
WP6902	Color Tinter Kit (waterborne - 473 ml)
WP6903	Color Tinter Starter Kit (waterborne - 150 ml)
WP6904	Color Tinter Kit (solvent-base - 946 ml)
WP6910	Bumper Coater Aerosol Starter Kit (solvent-base)
WP6920	Dashboard Coater Aerosol Starter Kit (solvent-base)
WP6930	Leather Coater Aerosol Starter Kit (waterborne)
