

RUST & CORROSION

SEM rust and corrosion products offer superior protection when refinishing clean metal or refurbishing rusted metal. Stop rust in its tracks with SEM!

PART #	DESCRIPTION	SIZE / PACKAGE
39463	UNDERCOATING	AEROSOL
39523	RUBBERIZED UNDERCOATING	AEROSOL

UNDERCOATING™

- Provides corrosion protection, sound deadening and chip resistance to quarter panels, fenders, undercarriages, hoods and decks.
- **39463** is an economical, asphalt based formula.
- **39523** is rubberized, paintable and fast drying.

PART #	DESCRIPTION	SIZE / PACKAGE
40463	LOW VOC UNDERCOATING	AEROSOL
40523	LOW VOC RUBBERIZED UNDERCOATING	AEROSOL

LOW VOC UNDERCOATING

- Same great qualities as **39463 UNDERCOATING** and **39523 RUBBERIZED UNDERCOATING**, yet designed to meet 40% VOC regulations.

PART #	DESCRIPTION	SIZE / PACKAGE
39573	INTERNAL PANEL COATING	AEROSOL

INTERNAL PANEL COATING

- Provides corrosion protection to inner body panels.
- Permanently flexible.
- Non-hardening.

PART #	DESCRIPTION	COLOR	SIZE / PACKAGE
3980()	CHIP GUARD	CLEAR	3, 4
3981()	CHIP GUARD	SATIN BLACK	3, 4

CHIP GUARD

- Protects vulnerable lower panels from chipping and corrosion.
- Matches a variety of factory textures.

PART #	DESCRIPTION	COLOR	SIZE / PACKAGE
39793	HEAVY TEXTURE CHIP GUARD	OPAQUE	AEROSOL

HEAVY TEXTURE CHIP GUARD

- Protects vulnerable lower panels from chipping and corrosion.
- Formulated to duplicate medium to coarse OEM textures.

RUST & CORROSION

RUST-SHIELD™

- Controls rust and corrosion on ferrous metals.
- Isolates rust and forms a permanent protective coating.
- All colors may be intermixed to create custom colors.

HARDENER AND GLOSS ENHANCER

- Increases durability and adds gloss to all **RUST SHIELD** coatings.
- Available in PINT containers only.
- Mix 8:1 with **RUST SHIELD**.

70062

RUST-SEAL

- Transforms rust leaving a tough, permanent black protective coating.
- May be topcoated with enamels, lacquers or urethanes.

RUST-MORT

- Converts rust to a hard insoluble, protective coating.
- Must be painted.

PART #	COLOR	SIZE/PACKAGE
3806()	GLOSS BLACK	1, 3, 4
3807()	RED PRIMER	1, 4
3808()	SAFETY ORANGE	1, 3, 4
3809()	FLAT BLACK	1, 3, 4
3810()	BLACK	1, 3, 4
3811()	WHITE	1, 3, 4
3812()	DARK BLUE	1, 3, 4
3813()	INTERNATIONAL HARVESTER RED	1, 3, 4
3814()	CAT YELLOW	1, 3, 4
3815()	F.M.F. GRAY	1, 3, 4
3816()	JOHN DEERE YELLOW	1, 3, 4
3817()	BARRIER PRIME	1, 3, 4
3818()	JOHN DEERE GREEN	1, 3, 4
3819()	ALUMINUM	1, 3, 4
38008	HARDENER & GLOSS ENHANCER	PINT
70062	INTERMIX COLOR SELECTOR	1 EACH

PART #	DESCRIPTION	SIZE / PACKAGE
39304	RUST-SEAL	QUART
39308	RUST-SEAL	PINT

PART #	DESCRIPTION	SIZE / PACKAGE
69501	RUST-MORT	GALLON
69504	RUST-MORT	QUART
69508	RUST-MORT	PINT

() KEY: 1 = GALLON; 3 = AEROSOL; 4 = QUART

TECH TIP: *RUST-MORT* and *RUST-SEAL* chemically convert rust to an inert black coating. After the conversion takes place, the surface treated with *RUST-MORT* will need to be rinsed with water to neutralize any excess residue, dried and then painted. The surface treated with *RUST-SEAL* will be left with a protective coating that may be left exposed or painted if desired.
