Boot Installation Tools

WPT-TwenTec Automotive BV offers a range of specific tools for boot installation :

- Installation cones with diameters of 100 an 115 mm for the UF-TEXCO and the UF-TEXCO XL boots.
- “Fast-Tool” installation support tool: one model for both UF-TEXCO and UF-TEXCO XL boots.
- Clamp installation tools for the various clamp types :
 - for Standard clamps:
 - the Basic Tool with tensioning nut and lever action
 - the Tool Deluxe with ratchet and integrated hand-cutter
 - for Crimp Style clamps :
 - Tool All-in-One : one tool for trimming, tensioning and crimping.
 - for Ball and Ligarex Style clamps :
 - Installation Tool HD, designed for Ball clamps, but also suitable for Ligarex Style clamps
