

# Bio-Quick

## Product Division SP Service Products

### BioQuick Absorbent

BioQuick picks up liquids of any viscosity off any hard surface, leaving that surface clean and dry. BioQuick has virtually unlimited uses as a dry absorbent that is safe in all applications.

It is not injurious to soil, cement, asphalt, tiles, plants, animals or humans. BioQuick contains no reactive chemicals, it is not toxic, flammable or biodegradable. BioQuick is environmentally safe and friendly.

BioQuick meets the German directive for absorbents Type III R.

### Features:

- high absorption capacity, so economical to use
- low specific weight, hence savings in disposal fees
- easy and safe to use

Partnumber	Description
19110	BioQuick, 10 Liters, Container
19168	BioQuick Heavy, 25 Liter Refill
